MICRODATA ANNOUNCES APPOINTMENT AS HEWLETT PACKARD PROCURVE SELECT PARTNER

Company continues to lead in providing IT outsourcing for the SMB market

October 5, 2009 - MicroData, the Boston-area leader in providing outsourced IT services, today announced it has been appointed as a *ProCurve Select Partner* by Hewlett Packard. As a ProCurve Select Partner, MicroData has demonstrated the highest level of expertise with HP networking technologies and proven its ability to meet customers' needs. ProCurve Select Partner is HP's highest level of recognition of technical skill and organizational resources required to provide exceptional customer service in the area of network design, implementation, and support.

"We are extremely pleased to been appointed as a ProCurve Select Partner by Hewlett Packard," said Glenn Mores, president of MicroData. "This makes a significant statement to our customers that our teams have the expertise and skills necessary to meet the requirements that come with the ProCurve Select Partner certification. Not many IT outsourcing companies are ProCurve Select certified. It is this distinction and our advanced knowledge in Infrastructure and networking solutions that sets us apart from our competitors and allows us to offer enhanced services and highly customized IT solutions for our customers."

As one of the requirements for appointment as a ProCurve Select Partner, MicroData had to demonstrate expertise in a wide range of networking technologies. This expertise needed to be confirmed by both independent 3rd party testing as well as by past performance.

About MicroData

Founded in 1992, MicroData has become the leader in providing outsourced IT services to small and mid-sized organizations in New England – both profit and not-for-profit. MicroData’s services include complete IT outsourcing, managed services, network and LAN/WAN analysis and design, deployment, installation, maintenance, user training, and strategic MIS consulting. Headquartered in Beverly, Massachusetts, MicroData serves the Boston-north area. For more information, visit <http://www.microdata.com>
