MicroData®

Five-Minute Recovery of Servers and Applications

MicroData™ 24 7 Support

Your business is at risk every day. Simple daily backups are no longer enough to ensure your business can keep running in the event of equipment failure, human error, fire, flood, or cyber security threats. You need a solution that offers flexibility, redundancy, and resilience. But that solution needs to be simple use and recover.

Introducing MicroData SafeGuard - a **total data protection** solution for your business. Leveraging the industry-leading Datto Backup, Continuity, and Disaster Recovery engine, MicroData's SafeGuard service provides true peace-of-mind for business.

SafeGuard backs up all of your server data every 15 minutes, so if the worst should happen, your employees can be back at work in minutes—*not hours or days*. It quickly turns a disaster into a minor event.

SafeGuard Advantages

- **Compatible**. Works with Windows, Linux, and Mac systems
- **Flexible.** In the event of a disaster, you can choose to have local virtual servers replace your failed servers, failover to Cloud-based servers, or perform a fast bare-metal restore onto new, replacement hardware
- **Powerful**. Every 15 minutes, your data is backed up locally, tested, and replicated to a globally redundant secure cloud
- **Comprehensive**. Our Infinite Cloud Retention option means you can store your data for as long as your business requires
- **Ransomware Protection**. SafeGuard monitors and targets specific paterns of Ransomware within a single backup and alerts you and MicroData so action can be taken to let you get back to business without paying a ransom
- **Scalable.** SafeGuard can protect up to dozens of servers per location

One Integrated Solution

SafeGuard is the single solution to **backup**, **restore**, and **secure** your data and is backed by the experts at MicroData and Datto; 24x7x365

To get started protecting your data anywhere and restoring it anytime, contact us at 800.924.8167.

The MicroData Advantage

Since its founding over 26 years ago, MicroData has focused on developing and supporting comprehensive IT environments for our clients. We provide our clients—whether Fortune 500, manufacturing, biotech, education, financial services, not-for-profit, or government—with the expertise and resources that guarantee them a competitive advantage. As they have all discovered, outsourcing IT operations with MicroData makes good sense.
